Summary

Flutter developer with 2+ years of professional experience building cross-platform mobile applications. Skilled in delivering Android and iOS apps, integrating RESTful APIs, and implementing state management using Riverpod and GetX. Experienced in translating UI/UX designs from Figma to Flutter, implementing push notifications with Firebase, and using location services. Committed to writing clean, maintainable code and following best practices, with growing expertise in ReactJS and NodeJS.

Education

Softwarica College of IT and E-Commerce

BSc. Hons Computing

Dillibazar, NP

Mar. 2020 – Mar. 2023

Softwarica College of IT and E-Commerce

MSc. Data Science and Computational Intelligence

Dillibazar, NP

Sep. 2025 – Present

Experience

Mobile Application Developer

Dish Media Network Ltd.

Dec. 2025 – Present

Karyabinayak, NP

- Collaborated with UI/UX designers to translate Figma designs into pixel-perfect, user-friendly Flutter mobile interfaces.
- Integrated RESTful APIs to seamlessly connect mobile applications with backend services and data sources.
- Coordinated effectively with cross-functional teams to ensure timely delivery of project milestones.
- Engaged directly with stakeholders and clients to gather requirements and deliver tailored mobile solutions.
- Proactively researched and adopted emerging Flutter technologies and consistently applied industry best practices in development.

Junior Software Developer

Infocom Solutions Pvt. Ltd.

May 2023 – Dec. 2025

Hattisar, NP

- Collaborated with UI/UX designers to translate Figma designs into visually appealing and user-friendly mobile interfaces.
- Integrated RESTful APIs to connect mobile applications with back-end services.
- Ensured timely project completion by coordinating effectively with team members.
- Liaised directly with clients to understand specifications and deliver solutions meeting their requirements.
- Stayed updated with the latest Flutter trends and consistently applied best practices.

Software Developer Intern

Infocom Solutions Pvt. Ltd.

Feb. 2023 – May 2023

Hattisar, NP

- Gained practical experience in web and mobile development on real-world projects.
- Developed skills in advanced ReactJS and introductory React Native.
- Learned and applied Redux for state management in both React and React Native applications.

Projects

Bizlevate | Corporate Attendance and Leave Management App (Flutter)

- Built a comprehensive mobile app for managing corporate attendance and leave tracking.
- Implemented Hive Database for efficient offline caching and local data management.
- Managed application state using Flutter Riverpod and integrated back-end APIs.
- Translated Figma designs into a seamless UI/UX within the Flutter project.

SalesMania | Sales Management Mobile Application (Flutter)

- Created a mobile app to track and manage sales operations based on client specifications.

- Designed and implemented user-friendly interfaces following MVVM architecture.
- Integrated REST APIs for data exchange and managed state using Flutter Riverpod.
- Identified and resolved bugs to ensure application stability and adherence to project standards.

myDishHome | *Customer Self-Service Mobile Application (Flutter)*

- Developed a customer-facing mobile app for DishHome subscribers to manage services based on client specifications.
- Designed and implemented user-friendly interfaces including technician review system following clean architecture with GetX.
- Integrated REST APIs for data exchange and managed application state using GetX controllers.
- Configured Firebase Crashlytics for real-time crash monitoring and resolved reported bugs to ensure application stability.
- Identified and resolved UI/UX issues to maintain adherence to Figma design specifications and project standards.

HG HUB | *Corporate Attendance and Leave Management App (React Native)*

- Developed a corporate attendance application using React Native.
- Implemented secure user access through JWT authentication.
- Utilized React Redux for efficient state management and integrated REST APIs.

Technical Skills

Mobile Development: Flutter, React Native

Frontend and Backend: React, Node.js

Developer Tools: Git, GitHub, GitLab, VS Code, Android Studio, Xcode, Figma, Firebase

State Management: Flutter Riverpod, GetX, React Redux

Databases: MySQL, MongoDB, Hive
